Farmers throughout the country are evincing a deep interest in the movement to establish a national system of public roads. They are asking their state highway officials and representatives in congress for definite information concerning the national highway bill now pending in the United States senate, and with a clear understanding of the national road project they are in general expressing their approval. Am it resaion is held in sime sections toat the continuation of federal aid will be affected should the pending measure become a law, since it provides for construction and maintenance under exclusive federal control on such highways as may become state links in the national system. The fear has been expressed that such a step would result in a lessening of federal cooperating on purely state and county

Senator Townsend of Michigan, author of the bill and chairman of the senate committee on postoffices and post roads, is keeping in close touch with highway problems, particularly during this period when auxiliaries to railways and quicker methods if food product distribution are so urgently needed to check living costs. Noting this tendency of fear that the national highway project might in some way affect adversely the present system of federal and state co-operation, he has expressed the opinion with emphasis that the federal aid plan will in no wise be weakened. On the contrary, the senator asserts that federal aid will be strengthend since roads are what the people need, and a greater Sales.
Divide-200, 5.65; 200, 5.67½, 100, be constructed and put into use in mileage of permanent highways will 95; 200, 5.90. Hasbronck—1000, 23; 1000, 23; much less time under the proposed national highway plan than is pos-

sible even at the rate roads are now

phatruction, which will be beneficial to the states. The bill does not in any manner injuriously affect existing law, in fact it provides that the commission treated under it shall lave charge of the federal aid law, and shall make reports annually to the congress as to what is being ac to make such recommendations for visit with Mr. and Mrs Ben Henley Mexican government to strict acthe future as the operation of the the future as the operation of the law and its results seem to be necessary. The two systems of road building are separate and distinct, cities. They report having had an copt that they are under control of the same federal commission. The oppropriations, however, cannot be mingled, and the results will be snown and properly appraised by the people from time to time. If the resent federal aid proves satisfacory, it will, as a matter of course, e continued, and probably enlarged. if the proven results are not satissctory, that law will be discontinued. And what I say of the federal aid aw will be true of the bill now pending before the senate. The commission appointed under the law, it may safely be presumed, will be high grade men, representing different sections of the country, and their life work will be to serve the people by furnishing the best pos-

TONOPAH & GOLDFIELD RAILROAD COMPANY

Pending the outcome of the present labor situation, we have decided to suspend our 'public all' which has been held at \$:30 o'clock every evening. We are prompted to do this as the public mind is centered upon the strike situation and the uncertainty of its settlement and, become are thinking more of their immediate necessities rather as a scalation.

We believe the present labor dispute will soon be amicably settled. There is one much at stake for differences to exist long. The public call is a great success and under ordinancy conditions Tonopah will make the quotations for New York and San Francisco.

We have come to Tonopub to stay; we believe the future of the Divide District is assured. No other mining district so far developed has shown such extensive high grade ore in so short a time.

Nevada from a mining standpoint is yet unknown and its pos-

We thank the public for their interest in our "public call" and assure them it will be resumed.
